Release Date: Monday, March 10th, 2014

Traffic Signal Work at 24th and Washington to Affect Drivers

Traffic signals at the intersection of 24th Avenue and Washington Avenue will be shut down temporarily on the morning of Tuesday, March 11th for a few hours while work is done to a control cabinet.

City of Yakima crews will be changing over the signal cabinet from about 8:30 am to about 11:00 am that day. While the work is underway, the signals at the 24th and Washington intersection won't be working. Flaggers will be in place to direct traffic through the intersection.

During the project, traffic delays in the area are likely to occur. Drivers should use alternate routes if possible until the project is completed.

Access to homes and businesses in the area will be maintained and traffic will be allowed through the project area when possible.

As always, the schedule for this type of a project is subject to change daily dependent on weather, equipment failure, and emergencies.

For additional information about this project, contact Streets and Traffic Operations Manager Joe Rosenlund at 576-6430.
